

- Simulates a small fire.
- Flame is 30 centimetres high.
- Simple operation.
- Equipped with LED lights and a white cloth.

Product details

A silkflame imitates a seat of fire with the combination of a silk cloth, LED lights and a ventilator. A realistic flame is created in less than no time. It is matter of connecting the plug to the power point and pressing the start button.

The flame of this Mini Silkflame is 30 cm high. As a result this flame is very suitable for exercises for emergency response officers. Place the Mini Silkflame for example in a wastepaper basket or cupboard. Also ideal as a surprise effect or for post reconnaissance.
