

- Standard for fire manikins.
- Suitable for manikins up to 15 kg.
- To practice with the fire blanket.
- Can be taken down in 2 parts easily
- Is supplied as a construction kit

Product details

This Manikin Standard is intended to allow the fire manikin to stand upright during an exercise. This way the manikin will simulate a standing person on fire and students can practice the fire blanket. The standard is levelled at the back, as a result of which the burning dummy can easily be laid down.

The standard can also be a nice way of storing your manikin. During transportation you can make the standard more compact by taking it in 2 parts. The items will be supplied as a construction kit. Supports manikins up to 15 kilograms.
