

- Fast conventional fire simulation.
- With rapidly flashing xenon globe.
- Generates a crackling sound.
- Operates using 8 D batteries.

Product details

Traditional way of fire simulation

The Crackle Box is useful to simulate a fire quickly and in a conventional way during an exercise. The blue box is equipped with a red, flashing xenon globe and generates a crackling sound. The Crackle Box is extremely handy and simple to use. Therefore, the box is quick and easy to set up during an exercise. To get the box to start crackling and flashing, you flick the switch on in one movement. The Crackle Box operates using 8 D batteries (included) and is equipped with a handle.
