

- Hygienic cover for use between the face and a blind mask
- Specially designed for the Nebula AR smoke simulation mask
- Protects the student against sweat and heat
- Packed per 100 pieces

Product details

Train hygienically with the Nebula AR smoke simulation mask

Keep the Nebula AR smoke simulation mask clean by using a hygienic cover. Students wear the Nebula AR Hygienic Cover between their face and the blind mask. The cover protects against heat and absorbs sweat. This allows several students from the group to use the same blind mask. The mask does not need to be thoroughly cleaned when transferred from one student to another.

A used cover is thrown away and the next student gets to work with a new disposable cover. As a result, the smoke experience of the Nebula AR can be experienced carefree. In addition, trainings can happen in rapid succession.

The fabric is comfortable and is attached behind the ears by means of soft elastics. Order the Nebula AR Hygienic Cover per 100 pieces.
