

- Sign to indicate smoke.
- Suitable for practicing based on simulation.
- When realistic smoke is undesirable.
- With holes in the upper corners for easy fastening.
- Scratch and weatherproof screen print.
- 34 \* 54 cm, packing in Plastic Box (excluded) possible.

## Product details

### Traditional and safe

The Traditional Smoke Sign is a sign with the word smoke on it. The sign indicates there is smoke at a specific location and is suitable for practicing based on simulation. The sign can also be used at locations where no other form of smoke is desired, for example in an ATEX environment.

The practice sign contains a scratch- and weatherproof screen print. Holes are made in the upper corners of the sign. As a result the sign can be fastened easily. Easy to place in a Plastic Box 60\*40\*9 cm (excluded) per 10 pieces.
