

FireWare Vesta

Article number 049-012-001 Category **Extinguisher Trainers**

- Based upon years of experience.
- For extinguishing with water, CO2 or foam.
- Suitable for level A or C fires.
- No water required, thanks to dry burner technique.
- Works on a battery and with propane or butane.
- Is operational within 3 minutes.
- Including industrial remote control.
- Including a plastic box measuring 60*40*44 cm.
- Weighs only 19kilograms.
- Unique: extra gas outlet for add-ons.

Product details

A compact extinguisher trainer, no water required

The FireWare Vesta is small and compact, but it generates a huge flame. The size of the flame is adjustable. The extinguisher trainer weighs 19 kilos and that makes it easy to carry. Ideal when you need to set up a training by yourself!

To make the Vesta compatible for any situation, FireWare developed active top-pieces. Active means that they work on their own gas supply. The Vesta has a special exit and a separate button on the remote to activate the top-pieces.

Thanks to FireWares experience with many extinguisher trainers, the Vesta is supplied with clever tricks: its light, its small, it has a clear, industrial remote control and cutout handles, it comes in a plastic case and it is built from separate modules for quick maintenance and reparations.
