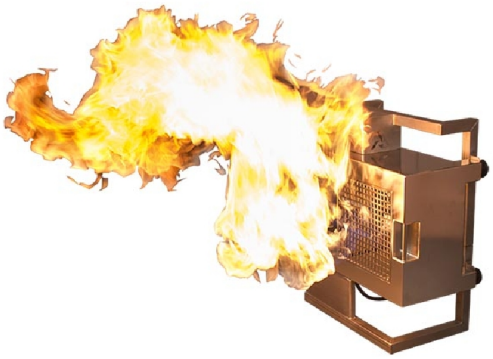
Vesta Horizontal Stand

Article number 049-012-036
Category Extinguisher Trainer Add-ons



- Ideal for allowing your FireWare Vesta to create horizontal effect flames.
- Including a plastic box measuring 60*40*32,5 cm.
- Equipped with heat shields for the gas and remote control connections.
- The Vestas adjustable feet are used to secure it in position: no loose parts!

Product details

Use your Vesta horizontally

It can sometimes be useful to have a horizontal flame rather than a vertical flame for a particular effect. This stand will allow you to place the FireWare Vesta in a vertical position. The built in heat shields are in place to protect the gas and remote control connections against the radiant heat.

This stand is intended for the creation of horizontal flame effects, not for keeping a horizontal flame going for a long period of time. You can also create a ball flame instead of a flame jet by removing the grid from the FireWare Vesta.

The FireWare Horizontal Stand comes with 4 star knobs. Screw off the original feet of the Vesta and then secure the Vesta to the standard with the star knobs. This standard is delivered with a plastic crate.
