

- Adjust the top of the Vesta extinguisher trainer to desk height or about half a meter from the ground
- Make the FireWare Vesta extinguisher trainer mobile
- Supplied in a plastic box 60 x 40 x 32.5 cm for transporting

Product details

Adjust the Vesta to desk height and make your extinguisher trainer mobile

The Vesta Trolley is designed to use the FireWare Vesta extinguisher trainer at a higher height from the ground. The trolley can be set at two heights using the supplied tube profiles. The top of your Vesta will be about 50 centimetres from the ground or about 75 centimetres from the ground. Use the extinguisher trainer at desk height and make your trainings with the Add-on Computer, the Add-on Fryer, the Add-on Microwave an the Add-on Electrical Cabinet even more realistic!

Because the trolley has wheels, you will also be able to move the Vesta more easily. Is the weather turning and do you want to provide your training under shelter? Then its just a case of rolling the extinguisher trainer to another location!

The Vesta Trolley is supplied in a plastic transport box with dimensions of 60 x 40 x 32.5 centimetres.
