- Vesta add-on for a gas fire.
- Manual ignition.
- Extinguishing can be done with water.
- Including a plastic box measuring 60 x 40 x 32,5 cm.

Product details

Safely simulate a gas fire for training

The Add-on Gas Cylinder is an add-on for the FireWare Vesta. You can connect the metal cylinder to your FireWare Vesta with the included gas hose. The gas cylinder can now be controlled with your Vesta remote. The student can extinguish the Add-on Gas Cylinder by cooling the cylinder with a jet of water and closing the gas tap. The instructor will put out the flames using the Vesta remote.
