

- Everything you need for smoke machine maintenance;
- The perfect addition to the Maintenance and Repair Training;
- Designed for convenience and safety;
- High-quality, robust materials;
- Delivered in a handy storage box.

Product details

Have you attended the Maintenance and Repair Training for practice materials with us? Then the Fireware Maintenance Kit for smoke machines is the logical addition to this. The set offers the basic tools for maintenance and diagnosis of Fireware smoke machines as you learned to use in the training. This toolkit contains essential tools to keep your equipment in top condition and quickly resolve issues.

Contents of the Maintenance Kit:

- **Power tester:** Quickly check if your smoke machine is heating up properly.
- **Table switch:** Safely test pumps individually.
- **Brush set:** Easily remove caked dirt and smoke fluid residues.
- **Magnetic parts tray:** Keep screws and parts organized during (dis)assembly.
- **Bearing grease:** Protect stainless steel screws from corrosion and seizing.
- **Handy Fireware Box:** Keep your tools neatly organized with space for additional tools and spare parts.

With the Fireware Maintenance Kit, you are ready for any maintenance or repair task, extending the lifespan of your smoke machines. Order today and ensure optimal performance of your equipment!
